

Ocean Power Technologies Announces Fiscal Second Quarter 2019 Financial Results

December 10, 2018

Successful Commercialization Strategy Gains Momentum

MONROE TOWNSHIP, N.J., Dec. 10, 2018 (GLOBE NEWSWIRE) -- Ocean Power Technologies, Inc. (NASDAQ: OPTT), a leader in innovative and cost-effective ocean energy solutions, announced today its financial results for the fiscal second quarter of 2019 ended October 31, 2018. " We believe that the strong momentum that OPT's sales and marketing team experienced in the first half of the fiscal year is indicative of our ongoing success." George H. Kirby, President and Chief Executive Officer of Ocean Power Technologies, explained, "We are now in the process of executing multiple contracts to supply PowerBuoys™ in targeted markets across various industry sectors."

Mr. Kirby continued, "Our new facility and scaled operations allow us to better deliver high-quality products and services to our customers. In addition to the lease of our PB3 PowerBuoy™ for use in the Adriatic Sea by Eni S.p.A., we are also in the process of finishing the engineering design work on a PB3 PowerBuoy™ to be delivered to Premier Oil for deployment in the Central North Sea. Moreover, with our deep pipeline of commercial opportunities and continued increasing demand for our products, we believe we will be able to lease or sell a growing number of PB3 PowerBuoys™ to our targeted markets around the globe."

Finally, Mr. Kirby highlighted "We believe that the expansion of our suite of complimentary products that leverage the core technology of the PowerBuoy™, including new subsea battery solutions and a hybrid PowerBuoy™, provides us further opportunities to monetize these existing technologies. This expansion will enable our industry recognition as an innovator in offshore power to continue to grow."

Second Fiscal Quarter Financial & Recent Operational Highlights

- Progressed contracts with Eni S.p.A. and Premier Oil;
- Executed agreement with Enel Green Power to evaluate a potential PowerBuoy™ deployment off the coast of Chile;
- Expanded our suite of complimentary products that leverages our PB3 PowerBuoy™ to include lithium ion subsea battery solutions and a hybrid, liquid-fueled PowerBuoy™;
- Continued to build and address increasing demand for the PB3 PowerBuoy™ by responding to multiple requests for proposals, technical information and pricing, and through new marketing initiatives.

Second Quarter Operations Review

In discussing the company's operational progress in the second quarter, Mr. Kirby stated, "OPT has made continued commercial and operational progress during the second quarter. Our new complimentary products, which will include subsea battery solutions and a hybrid PowerBuoy™, along with our existing PB3 PowerBuoy™ existing support services, provide more comprehensive solutions that can meet the needs of more customers requiring reliable power and communications in their subsea work across the globe."

Mr. Kirby continued, "We strengthened our Board with the addition of Kristine S. Moore on September 10, 2018. Ms. Moore brings over 25 years of international senior executive experience and a wealth of commercial, technical and transformational expertise. Her senior leadership roles with Royal Dutch Shell and IBM, and her experience in the energy, technology and industrial sectors will provide the depth and breadth of experience needed to round out the credentials, skillset, and backgrounds of our Board members."

Second Quarter 2019 Financial Results

Revenue for the second quarter of fiscal 2019 ended October 31, 2018 was \$0.1 million, compared to revenue of \$0.1 million for the second quarter of fiscal 2018. Revenues in fiscal 2019 comprised of new customer contracts underway with Eni S.p.A., Premier Oil, and Enel Green Power S.p.A. The contracts with the Office of Naval Research and Mitsui Engineering and Shipbuilding were completed in the same period in fiscal 2018. Cost of revenues increased \$0.7 million compared to the three months ended October 31, 2017. The increase in cost of revenues is due to higher upfront spending and material costs on new customer contracts compared to the same period in the fiscal 2018. The net loss for the second quarter of fiscal 2019 was \$3.9 million, compared to a net loss of \$2.6 million for the same period in the prior year. The increase in net loss for the second quarter of fiscal 2019 as compared to the same period in fiscal 2018 is mainly attributable to higher upfront engineering and product development costs associated with the new customer contracts, and the costs associated with building additional PowerBuoys™.

Fiscal First Half 2019 Financial Results

Revenue for the first six months of fiscal 2019 was \$0.2 million, compared to revenue of \$0.3 million for the first six months of fiscal 2018. The slight decline in revenue is due to the timing of the launch of new customer contracts during the first half of fiscal 2019 with Eni, Premier Oil, and Enel Green Power S.p.A. The contracts with the Office of Naval Research and Mitsui Engineering and Shipbuilding were completed in the same period in fiscal 2018. The net loss for the first six months of fiscal 2019 was \$7.1 million, compared to a net loss of \$5.2 million for the same period in fiscal 2018. The increase in net loss for the second quarter of fiscal 2019 as compared to the same period in fiscal 2018 is mainly attributable to higher upfront engineering and product development costs associated with the new customer contracts, and the costs associated with building additional PowerBuoys™.

Balance Sheet and Cash

Total cash, cash equivalents, marketable securities, and restricted cash were \$4.6 million as of October 31, 2018, compared to \$12.3 million on April 30, 2018. As of both October 31, 2018, and April 30, 2018, restricted cash was \$0.7 million. Net cash used in operating activities was \$7.6 million during the six months ended October 31, 2018 as compared to \$6.7 million during the same period in the prior year.

Conference Call & Webcast Details

Ocean Power Technologies' management will host a conference call and webcast to review the second quarter financial and operating results on Tuesday, December 11, 2018 at 11:00 a.m. Eastern Time. Interested parties may access the conference call by dialing 1-844-473-0979 (toll free in the U.S.) or 1-574-990-1390 for international callers and entering passcode conference ID 8585504.

Investors, analysts and members of the media interested in listening to the live presentation are encouraged to join a webcast of the call available on the investor relations section of the Company's website at <https://www.oceanpowertechnologies.com>.

A digital replay will be available by telephone approximately two hours after the completion of the call until January 17, 2019 and may be accessed by dialing 877-660-6853 from the U.S. or 201-612-7415 for international callers and using the Conference ID# 13685076. The webcast will also be archived on the Ocean Power Technologies investor relations website.

About Ocean Power Technologies

Headquartered in New Jersey, Ocean Power Technologies aspires to transform the world through durable, innovative and cost-effective ocean energy solutions. Our PB3 PowerBuoy™ uses ocean waves to provide clean, reliable and persistent electric power and real-time communications for remote offshore applications in markets such as oil and gas, defense, security, science and research, and communications. To learn more, visit www.oceanpowertechnologies.com.

Forward-Looking Statements

This release may contain "forward-looking statements" that are within the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Forward-looking statements are identified by certain words or phrases such as "may", "will", "aim", "will likely result", "believe", "expect", "will continue", "anticipate", "estimate", "intend", "plan", "contemplate", "seek to", "future", "objective", "goal", "project", "should", "will pursue" and similar expressions or variations of such expressions. These forward-looking statements reflect the Company's current expectations about its future plans and performance. These forward-looking statements rely on a number of assumptions and estimates which could be inaccurate and which are subject to risks and uncertainties. Actual results could vary materially from those anticipated or expressed in any forward-looking statement made by the Company. Please refer to the Company's most recent Forms 10-Q and 10-K and subsequent filings with the SEC for a further discussion of these risks and uncertainties. The Company disclaims any obligation or intent to update the forward-looking statements in order to reflect events or circumstances after the date of this release.
