

## Ocean Power Technologies Announces Second Quarter Fiscal 2022 Results

December 14, 2021

Investor Conference Call and Webcast on December 15, 2021, at 9:00 A.M. ET

MONROE TOWNSHIP, N.J., Dec. 14, 2021 (GLOBE NEWSWIRE) -- Ocean Power Technologies, Inc. ("OPT" or "the Company") (NYSE American: OPTT), a leader in innovative and cost-effective low-carbon marine power, data, and service solutions, today announced financial results for its second quarter, ended October 31, 2021.

### Business Highlights

- Revenues grew to \$247,000 in the second quarter of Fiscal Year 2022 compared to \$118,000 for the second quarter of Fiscal Year 2021, driven by growth in Strategic Consulting Services as the Company further integrates the February 2021 acquisition of 3Dent Technology, Inc.
- Entered strategic partnerships with software and robotics developers Greensea and Fathom5 to advance the development of the Company's proprietary next-generation Maritime Domain Awareness Solution ("MDA") platform.
- Conducted offshore MDA testing off the coast of New Jersey with positive results for OPT's continued development of this leading-edge solution.
- Subsequent to quarter-end, and as previously announced, the Company completed its acquisition of Marine Advanced Robotics ("MAR") on November 15, 2021, expanding OPT's commercial offering into autonomous vehicles for maritime data services.

### Management Commentary – Philipp Stratmann, OPT's President and Chief Executive Officer

"We had another quarter of progress executing our strategy to become the global leader in data- and power-as-a-service within our oceans and seas. We are reinforcing the building blocks of our services' technology design, including static data capture through our PowerBuoy® platforms, as well as autonomous vehicles through our acquisition of Marine Advanced Robotics. We also partnered with experienced developers to bolster our proprietary Maritime Domain Awareness platform that will feature advanced analytic capabilities and military-grade cybersecurity. We believe this will result in larger MDA project scoping and a strong subscription business."

### Financial Highlights

- **Revenues** – increased to \$247,000 for the second quarter of Fiscal Year 2022, compared to \$118,000 for the second quarter of Fiscal Year 2021, due to additional strategic consulting services.
- **Engineering and product development costs** – increased \$2.0 million from the second quarter of Fiscal Year 2021 to the second quarter of Fiscal Year 2022. This was mainly due to costs related to OPT's Greensea and Fathom5 MDA project.
- **Selling, general, and administrative (SG&A) costs** – increased by approximately \$200k from the second quarter of Fiscal Year 2021 to the second quarter of Fiscal Year 2021. The Company continues to manage its SG&A costs closely.
- **Net loss** – based on the above activity, the Company had a net loss of \$5.2 million for the second quarter of Fiscal Year 2022 compared to a net loss of \$3.0 million for the second quarter of Fiscal Year 2021.

### Balance Sheet and Cash Flow

- Total unrestricted cash and cash equivalents were \$72.6 million as of October 31, 2021.
- Subsequent to quarter-end, the Company closed on the previously announced MAR acquisition in a cash and stock deal. This included \$4.0 million of cash and \$7.0 million of stock at closing.
- Net cash used in operating activities for the first six months of Fiscal Year 2022 was \$10.4 million, as compared to \$5.7 million for the first six months of Fiscal Year 2021.
